

1st September 2023

Payroll Meeting

Disappointingly the company cancelled the pay roll meeting last week telling us they needed “more time” to prepare. We expressed our frustration and have been assured they will reschedule as soon as possible.

9/3 Contracts

The company shared that they have issued the new contract letters dated 2023 because this is the ‘season’ in which the contract extension took place. They also say that “the right starts following the CLA in 2022 but see no reason to change the date”

We still disagree on this matter and have requested a further discussion with HR about it.

ALC Transfers

After we raised concerns about start dates, we are pleased to report that all transfers into ALC will commence from 16th March 2024. This will avoid any problems in future should the escalafón be needed to resolve any issues and will mean that crew from seasonal bases can relocate during their inactivity period and start the new season in their new home base.

Thanks for reading and we wish you a great weekend!
