CLA

Since the new CLA is now published in the BOE making it an officially binding document, we have started the first step of our 'legal challenge' relating to possible discrimination in Articles 31 and 32 (reduction in working hours due to legal guardianship)

As per Article 5 of the CLA, a joint committee overseeing the document has been created with members of easyJet management, USO and representatives from SITCPLA.

A meeting will be held next week where we will formally raise the issue of potential discrimination as discussed with you at the assemblies in April where we held a vote on whether to sign off on the CLA or not.

We are proud to be taking this stance, distinguishing ourselves as the only Union who represent and support equal rights for everybody and with the full backing of our legal teams in Barcelona and Madrid we will do everything we can to make a positive challenge.

We will, of course keep you updated.

Caser Insurance

We have been made aware that Caser is sending letters to inform members that your health insurance is not going to be renewed.

We have contacted the office in Madrid that handles SITCPLA insurance and we are waiting for their reply.

In the meantime, those of you who have received this letter from Caser are invited to contact us so we can let you know when we get an answer.

Disruption/Bar Stock Shortages

We had a meeting with Valeria (Regional Manager) where we brought up the issue of cancelled flights and low levels of stock in the bars

Sección Sindical easyJet

causing a financial impact on our members (specifically in Seasonal Bases)

At this point however, she told us the statistics do not equate to the losses experienced last year and she has ruled out a goodwill payment for loss of income this season.

Wishing you a good weekend,
SITCPLA Reps
