

19th January 2024

Dear Members

Escalafóns

Yesterday we had our monthly meeting with the company and one of the points we discussed was the escalafóns.

To recap, there will be a general escalafón for all employees in Spain and individual escalafóns specific to each Spanish base.

There has been a delay in publishing the escalafóns due to GDPR (Data Protection) and the company are working on a way around this. They discussed some of the ideas their legal teams have suggested and we offered to support where we can to expedite the process.

Taking into account the inactivity period in seasonal bases, the company are proposing that once published, the period to check your details will run until 31st March, after which the documents can be finalised.

We'll update you on the progress as we know more.

New Base Management Structure

We were briefed on the email we all received yesterday about the small changes to the base management structure across the network.

For Spain, we were informed that PSM positions will be coming up in ALC and PMI. For those of you interested, look out for updates on the 'jobs' pages of inside.

Transfer Opportunities - Naples

Due to expansion in NAP, there are opportunities for some FA transfers for Summer '24 on a 10/12 contract.

If you are interested, full details along with the form to complete (by 26th January) can be found on yesterday's email from Internal Communications.

Have a good weekend!
